Cockroach Preparation Notice
Food Handling

Date and time of application:

Bystanders and animals must not be present during application.

In order for our technician to carry out a successful treatment we require you to carry out the following instructions.

Application is limited to close down periods only

Remove or cover all food, preparation and serving areas, packaging materials and utensils before application. Any of these areas that cannot be removed should be washed thoroughly after treatment.

Food areas include areas of receiving, storage, packaging (canning, bottling, wrapping, boxing), preparing, edible waste storage, enclosed processing systems,(mills, dairies, edible oils, syrups) and serving areas. Any of these areas that cannot be removed or covered should be washed thoroughly after treatment.

Non food areas include garbage rooms, lavatories, floor drains to sewers, entries and vestibules, offices, locker rooms, machine rooms,

After spraying wash all surfaces that may contact food and rinse thoroughly with potable water before re-use for food processing, preparation or serving. Dishes, food handling utensils and food contacting surfaces should be thoroughly washed with soap and water.

Ernst Exterminators is not responsible for lost or broken items or damages done to any furniture by the treatment.

The following adverse effects have been reported following re-entry into treated areas.

- Respiratory effects such as cough, sore throat or shortness of breath.
- nausea
- dizziness
- eye irritation

If you experience any effects, leave the area and ventilate the area further. For more information in these cases call **1-800-331-3148**. If you experience effects that do not resolve rapidly or become worrisome, contact your health care professional.

For more information pertaining to this application please contact **Ernst Exterminators** at **1-780-478-8886**
